Mr. Wayne Grover,
representative of National Enquirer,
Lantana, Florida.

Dear Wayne:

Yesterday my UFOs (the SIs) communicated with me and told me to write and send this letter.

Since their work in bringing tremendous rains to Florida and ending the drought in Florida...was not recognized nor appreciated...they will utilize one special UFO to beam HEAT down onto Florida...not just heat heat, but TREMENDOUS heat, unusual heat, freakish heat (see my Cleveland, Ohio, file, where this was done before.)

The effect will be to create another terrible Florida drought, only worse than the previous drought...amplified perhaps a hundred times.

The UFOs told me...that if this is the only way they can prove their reality to humans...in a negative way (ending the drought with rains was a positive way, and you can see how far the SIs and I got with that)...then so be it.

You promised me a notarized confirmation, simple statement of fact, re the action just transpired re rains.

Please return all of my materials and photographs, since Enquirer isn't going to do a story. Copy what you like, for your files. Thanks very much.

Best wishes to you and yours.....

Sincerely,

Ted Owens (PK Man)
