

Crippling drought hits

SYDNEY, Australia (UPI) — Australia was reported Monday to be on the verge of a crippling drought that could turn the southern half of the continent into a giant dustbowl in a month.

Thousands of kangaroos already have perished in the Outback areas of the states of Queensland and New South Wales and agricultural experts said millions more will die of thirst and starvation unless rain comes soon.

Towns in New South Wales are running low on water and plans are being made to transport water from other areas

for domestic use. The use of garden hoses to water lawns has been banned.

Prime Minister of Australia

Dear Sir:

I can save your country. Can give Australia all of the rain that it requires, immediately that you accept my services.

For your information I ended the killer drought in England a few years ago...see the hardcover book "Mysteries" by Colin Wilson (Putnam and Sons)...where this is documented.

You can secure a scientific report on my work by sending \$7 to ~~XXXXXXXXXXXXXXXXXXXX~~ Washington Research Center, 3201 Washington St., San Francisco, California, 94115. This report was done by scientists led by Dr. Jeffrey Mishlove. Just ask for the scientific report on Ted Owens (PK Man).

A book has recently been written about my life and work (including the ending of droughts) by D. Scott Rogo (published author with 18 books) at 18132 Schoenborn St., Northridge, California, 91324. He is a parapsychologist and scientific investigator, and collaborated with scientists in the writing of the book, which is a critical, scientific evaluation of my work.

If you have access to copies of Fate Magazine, a popular American magazine, secure the copy for February, 1979, and read the article written by a scientist entitled "Angry UFO Prophet Creates Psychic Havoc." The December 1979 copy has my rebuttal to a critic in "Report from the Reader."

I am half human, half alien, and work for and with UFOs.

Sincerely,

Ted Owens (PK Man)

Vancouver, Washington 98665

PS...I recently controlled the State of Florida. Ended its drought and caused other things to happen there. All thoroughly documented with scientists. You can check with Wayne Grover, Air Force Weather Expert, 3282 Parade Place, Lantana, Florida, 33462, and you will find that it is true.

Ted:
Hello!!!

Here I am. Better.

Ted, although late, I have to inform you of the many appearances of UFOs, and their occupants in the island since October '79. Just two weeks ago there was a black-out in the whole island and many UFOs were seen in Ponce, in the south, and over Levittown, in the north coast of our island. There were ~~were~~ (seen) occupants of UFOs of all sizes and aspects.

That's all now, Ted.

Health and happiness to you and the kids.

Yours,

Antolin

Australians report UFOs
PERTH (Australia AP) — Australians in the bush country who witnessed last year's fiery plunge of Skylab are seeing things again.
Widespread sightings of an unidentified flying object have been reported over Kalgoorlie, 370 miles east of here.
The manager of the Australian Broadcasting Corp. in Kalgoorlie, Stanley Brown, said he received hundreds of calls Wednesday night reporting various descriptions of a fiery object in the sky.

Jeffrey

Note: Experts following this file are well aware that I am employing powers from my UFOs (SIs) as well as The Mayan Power, Xtolac, to produce vast rains onto Australia to end that country's dangerous drought. This appearance of UFOs over Australia at this time is the signature of my UFOs affixed to my rain project. I.e., they are saying, in effect, "Owens' UFOs are here in Australia, working to bring the vast rains that he wishes."

Owens

It's also note that the SIs, Xtolac & I have produced rains in Australia in spite of the fact that the drought was more intense in the last few months of the year 1979.

Well then, let me put
it this way. Return my
two Max spring blade knives
or California will ~~be~~ probably
be wrecked. ~~California will be wrecked.~~
BY UFOA. ~~California will be wrecked.~~

Two pocket knives, spring-blade type, were taken from me by U.S. Customs not long ago. You will recall. I had a bulletproof vest and other items in my duffle bag because I was trying to protect my 9-year old son and myself in Yucatan and I thought Guatemala.

I collect pocket knives, and I had searched for this particular type for 30 years and finally found them in Mexico...only to lose them to you.

the matter been nothing to you. As "contraband" they are not supposed to fall into the hands of criminals for criminal use. I am not a criminal and never have been. They were to be used for letter-openers.

12-11-68. He assumed that these knives are dangerous. That is most numerous.
I, my mind, have controlled the area of San Francisco...and you can check with
the artist on that: Mr. Jeffrey Mishlove, 3101 Washington St., San Francisco,
California, 94115. To do that I had to knock out electrical power in the S.F. area,
control freak storms and lightning attacks, and produce a UFO that could be photographed
by scientists there. You can obtain a copy of the scientific report on that from
Mr. Mishlove for \$7. Area 415, 346-7770, phone.
I controlled the state of Florida...ran hurricanes over it; changed its weather, and
other things...you can check on it with an air force weather expert, Mr. Wayne
Gordon, 3200 Grand Allee, Panama, Florida, 33462, (305) 938-2261.
A scientific investigator has written a full book on my work in this regard:
Joseph G. G. 1132 Newborn St., Northridge, California, 91324, Area 213,
861-1711.

It is quite obvious that if I can control a city, a state...then that is indeed far more than having in my possession two pocket knives, is it not so?

... anyone to you.... use knives would not be used for any criminal action.

...the very existence of California might well depend upon your decision.
and pocket knives. It seems ridiculous, but I urge you to contact the above.

There is a re-cover book written by Colin Wilson called "Y. L. R. I. S." which describes a work of fiction. One, also "The Great America" a book of fiction (today, I believe; the other books are written about a fictional world).
