Results Book answer 4. Aug 22-72

Ted Owens

Dear Sir!

I wrote last Winter asking for one of your disks which I wear. At first I was very skeptical about help as I guess I'd more or less gave up.

But to my very big surprise about the 10th may I began to feel more human, I was back to the 4th Sun twice but no help for me. the risk of doing anything to great. So I take my med. & thank God each day & wear your disk. I can't remember when I had such a wonderful peaceful painless summer. & the pit ups & go I haven't had in years. I put in a big garden something I haven't done in years.

took care of it all by myself
canned more than 300 jars
of fruit & veg, pickles what
ever I had to put up.
even took complete care of
the yard painted the house.
He just marveled at the
work I was able to accomplish
the joy & peace both in my self
my husband does not believe in
anything, he thinks God is
a fake would also Ted owens.
But not so with me. But he
drink more than a $100.00 a
month, which worries me
terrible if he could be shut
in to quitting some way. oh how
grateful I'd be & reveal him
a Christ love His rest & way
days.

Did you predict all this
rain we have had. We
had more than 12 in 7 days
in 2 days in July. many roads
washed out, millions of dollars
in damages homes crops
ruining things in its path.

I heard Gatlin Saga ended so will have to get book & buy a copy. & may subscribe to it later as we are moving To South Dak. where the air is lighter & less humidity, winters don't be so bad.

Thank you so much I'll let you hear from me.

Dear Mr Owens —

Im enclosing 10.00 — I need another one of your disc — I wish I could send you a hundred dollars for just one disc, but at present I can only send you 10.00 Sometimes some people will not accept a disc because they are accustomed to one way of thinking + but — I've seen before if the disc is on their home, it does something to the program their way of thinking — It's sort of unsteady, but I believe it works — over

I believe the S.I have sort of looked after me - protected me in many ways - I have tried, & believe I have contacted S.T. I have never seen a UFO or flying saucer, but I am a believer -

I think you are doing a great job Ted & I feel your right to recognition for your work belong -

I am in need of a dress coded by you -

Thanks

John

Mr Ted Owens,

As per your instructions in regards to the wearing of the PK disc I have found without a doubt that the disc and everything it represents is very true. I have kept mental notes on its helpful powers. My faith in it will never cease. The unusaul things that have happend for me recently are as follows

a. I no longer have pain in my legs after walking or running.

b. My legs are no longer weak and seems to be strengthing more each week.

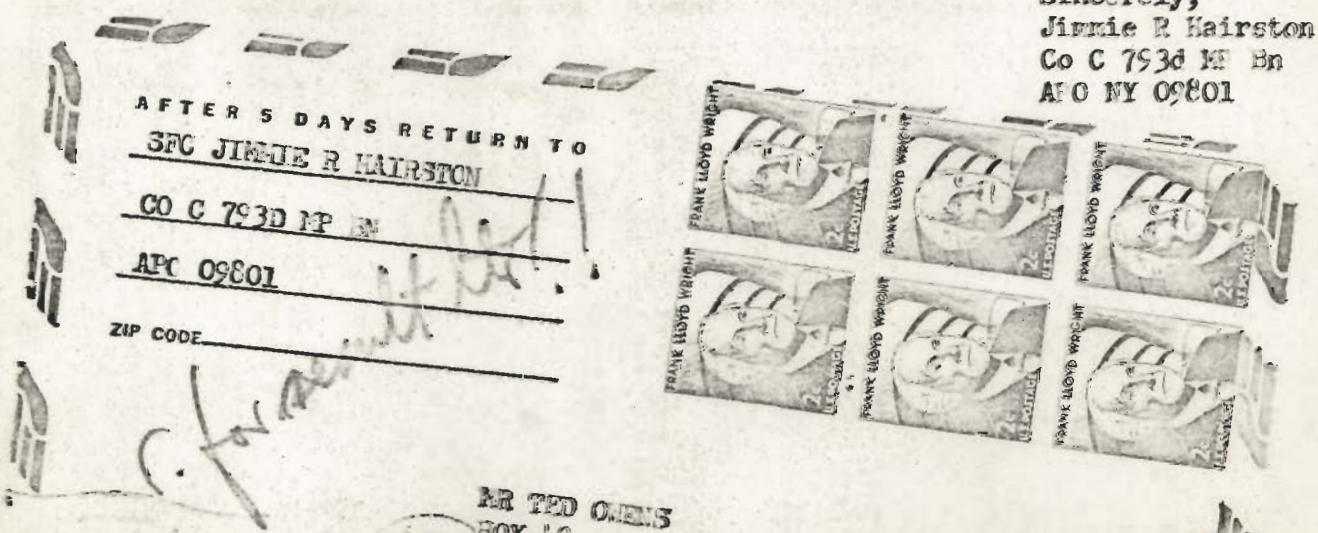

c. My duty performance capabilities have increased immeasurably because of constantly being in a relaxed state of mind of which before you gave me the help I needed I was in a constant turmoil.

d. My family have also benefited from your help.

c. Others have been very cooperative in helping me when the need arises.

d. Lastly I feel deep down inside that there is a guiding force that warns me wher I am about to make decisions that might interupt or deter from me enjoying the things that I have worked for or what you have given me the opportunity to have. Thank you. I am very grateful for all you have done. I will close now and will keep you posted as to things that happen.

Sincerely,
