

From Jim Hitsey, 202 N. Rock Road, # 607,
Wichita, Kansas 67206

Dear Mr Owens,

10 March 73

This long overdue letter will attempt to bring you up to date on my activities since last seeing you in Jan. Enclosed you will find copies of my law application for your file; please excuse the errors in my personal one as it was hastily copied by my grandfather's secretary - the original of course was without these.

Two days ago I received word that I was not accepted to Harvard. As you are well aware, my brother and I have been toying with the idea of sailing around the world. The past two days have firmed that decision and although I have not received word from the three other law schools to which I have applied, I have decided to forego that study for at least two years. The trip looks quite possible if my brother and I liquidate our belongings. We anticipate it will

take eight months of training after my separation from the Air Force on 3 Aug of this year to prepare ~~me~~ sufficiently. Let's hope the stock market recovers also to at least the break even point.

I enjoyed the material you have been sending, it is most impressive.

The following is the statement you asked for:

Having never met Mr Ted Owens (PK man) other than over the phone, upon arriving in Cape Charles at 6 AM on Monday, January 8, 1973, I proceeded to a local hotel for 5 1/2 hours of sleep. It was during this time that a dream occurred including Mr Owens, my two brothers and myself. The locale appeared to be a Texas ^{ranch} ranch. Mr Owens was driving my two brothers and I in a circular car along a fence adjacent to a barn and ^{Corral} ~~gate~~. Here we were to be taught

to fly without artificial aid. This was necessitated to escape the charge of two opposing horses. The feeling was very real and quite exciting. Mr Owens in person was as he appeared in the dream. One clarification, I had seen pictures of Mr Owens before meeting him.

note: here is the 3rd pupil of mine to have "night phenomena occur while here! Ted also - Rita Kennedy was picked by a horse in a Fox show in May, which

Although I have failed to write Mensa by me I must do so as must I finish transcribing the tapes to allow me to practice more readily

I have not attempted any contact in the country yet but will soon, weather permitting. Speaking of weather, until recently we in Kansas have experienced several weeks of repeated cycles namely extremely warm temperatures followed by equal cold temps accompanied by snow. This cycle repeated itself every week for four to six weeks at least.

Mr Owens, I would be very interested
