"The Australian" Newspaper
G.P.O. Box 4245
Sydney, Australia 2001 .

Gentlemen:

My name is Ted Owens, The PK Man. In August of 1972 some articles were written about me in Australian newspapers. One was in The Chronicle, "Rid Mice Offer By Miracle Man". Another article appeared in Toowoomba... "Miracle Worker Will End Plague Of Mice".

The material was sent to these papers from Mrs. Winifred Mossop, of Innisfail, an intelligent woman who had read articles in Sage magazine about my work.

Recent publications re my work include June 1973 Sage magazine; the 1973 Sage Annual; "Occult America" by John Godwin (hardcover book); "Revelation: The Divine Fire" by Brad Steiger (hardcover book); and "Predictions for 1973" by Glenn McWane, pocketbook.

What do I do? Miracles are my business. I have done 290 of them to date, and because most of them are completely documented, seven scientists are now observing my work, four of them internationally known scientists.

Why am I writing this letter? As a warning. A DEADLY WARNING.

I understand that the French are planning a series of nuclear tests in the Pacific.

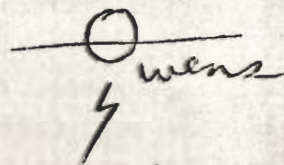

Let me make this perfectly clear to the French government. If they carry these nuclear tests out, in fact...then their country, France, and their French government...will be severely punished! By floods, droughts, epidemics, political upheaval, wild storms of every kind. In short, every catastrophe imaginable will strike France in time ahead...after they set off the Pacific nuclear blasts.

I warned the United States government not to set off nuclear test blasts. Some weeks ago they set off three simultaneous nuclear blasts. Last week...following the blasts...the United States was struck with 217 tornados! Never before in history had such a thing happened. A number of the eleven States ravaged by tornados were declared major disaster areas by President Nixon.

The country of France stands warned...by PK Man...and the UFO intelligences that he works with.

Sincerely,

Ted Owens (PK Man)
