

Miss Moore! I don't seem to find my writing
paper but cheer well wishes are always in style.
Have you been feeling a little tired - run down?
I feel you so, well get back on top. now -
I'll be praying for you. maybe I am assuming
more than I should, but there it is anyway.
I think you'd better be getting our friends
from D. from awaking on back of us. I don't feel
adequate to control them, but I respect them.
if I did I'd ask for protecting of my husband's
store as we had an armed robbery last week.
I am thankful that the gun had blanks. although
he hasn't been caught - if they would only
impress someone to buy us. I'd send you the
biggest check to help you with your work.
I wish also that they would repair my bridge
of my nose. it has been aching. I can't do
any thing fast & into H. feeling your face eroding away -

Scientists Note: Here is another case of
disc people being kept safe
in dangerous circumstances.
