We are now compiling a 1977 DIRECTORY OF THE PSYCHIC WORLD for publication in the New Year issue of Probe Magazine (circulation 60,000). The Directory will provide free listings for the world's leading psychics -- what services they perform and where readers may write.

Since you are a highly regarded seer, we would like to consider you for inclusion in this very special feature. Please note that you are not required to submit predictions for the coming year but merely a few lines of general information about yourself and your abilities. Publication of the Directory is guaranteed, and there is absolutely no charge to you for this valuable publicity.

To qualify for consideration, please fill out the enclosed questionnaire and return it to us no later than October 25. Be sure to include a glossy black & white photograph of yourself, since we intend to publish photos of each psychic with the listings.

It requires just a few minutes of your time to complete the necessary information, so won't you take a moment right now while this letter is fresh in your memory?

We look forward to hearing from you at your earliest convenience. With all best wishes.

Sincerely,

Betsy Reavis
Associate Editor

List five or your most outstanding prophecies or psychic achievements which have happened during the past year:

I went to Scotland and caused a UFO to appear, show itself, within a certain area...it is documented (see enclosed and I have further documentation in my files.) Went on to England, to Warminster, and brought a UFO down to my position...got the sound onto tape.

I predicted in Warren Smith's book, "Predictions For 1976" (Award Books) that mysterious illnesses (plural) would appear in the United States this year. And you have swine flu; the Philadelphia disease.

I was accorded a great honor as a psychic...invited to lecture at the annual Parascience Conference in London before some of the world's best scientists in the field of ESP and psi. While there in London I caused it to rain (the first they'd had in months) and then broke the English drought (worst in 500 years). This is thoroughly ~~documented~~ and a copy of the 108-page file can be obtained for \$35.00, documented from me.

I went to Egypt and discovered secrets of the pyramids (ESP, psi, etc.) never before known to mankind.

(For Statistical Analysis)

We have compiled an alphabetical list of the world's top-rated psychics. Study the list carefully and circle whichever 12 of your colleagues are the best known or most gifted in your opinion. You may include yourself, if desired.
